

<p style="text-align: center;">ICT</p> <p style="text-align: center;">KEY STAGE 3 LEVEL 7</p>

Pupils at Key Stage 3 Level 7 perform well in a number of the following aspects which show that they can:

- ◆ combine information from a variety of ICT-based and other sources for presentation to different audiences.
- ◆ identify the advantages and limitations of different information-handling applications.
- ◆ select and use information systems suited to their work in a variety of contexts, translating enquiries expressed in ordinary language into the form required by the system.
- ◆ use ICT to measure, record and analyse physical variables and control events.
- ◆ design ICT-based models and procedures with variables to meet particular needs.
- ◆ consider the benefits and limitations of ICT tools and information sources and of the results they produce, and they use these results to inform future judgements about the quality of their work.
- ◆ take part in informed discussions about the use of ICT and its impact on society.
